Company Address 2

September 11, 2024

Dear Recruiter,

I am writing to express my interest in the [Job Title] position at [Company Name]. With a strong background as a Full Stack Developer, significant experience in leading development teams, and a proven track record of delivering high-quality web applications, I am confident that my technical skills and leadership experience make me a valuable asset to your team.

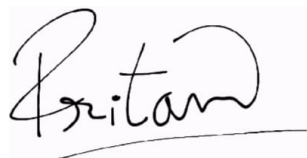

In my current role at Plutonapps (Whiterose Lab Pvt. Ltd.), I have been responsible for developing and maintaining multiple web applications using technologies such as Next.js, React, Node.js, MongoDB, and Tailwind. I have also implemented complex functionalities including third-party integrations like Dwolla and Stripe, while ensuring robust application architecture. Additionally, I have contributed to improving system stability and scalability in applications like Pitch40, where I played a key role in designing microservices architecture and real-time synchronization using WebSocket.

During my time at Blu Cocoon Digital, I successfully managed a team of 20 developers and 4 testers, overseeing the delivery of complex projects such as i360 and iCreate. My hands-on experience with technologies like Angular, Node.js, Azure Functions, and Cosmos DB has allowed me to design and implement solutions that drive customer satisfaction and meet business objectives.

I take pride in my ability to balance project management responsibilities while staying deeply involved in hands-on development. My focus on delivering efficient, scalable, and user-centric solutions makes me excited about the opportunity to bring my expertise to [Company Name].

I would welcome the chance to further discuss how my experience and technical skills align with your needs. Thank you for considering my application. I look forward to the opportunity to contribute to [Company Name]'s success.

Sincerely,

Pritam Majumder
